Claims 1-24 are pending in this application.

Applicant is advised to make the following changes or provide explanatory remarks to improve the claim form and clarity. In claim 6, it is queried whether the "a" in the phrase "wherein the borate is a sodium tetraborate decahydrate" (emphasis added) should be deleted. In claim 20, lines 3 and 4, the term "such" should be replaced with "so". The term "such" can be problematic because it can connote exemplary and/or limiting meanings.

Claims 17-19 are objected to under 37 CFR 1.75(c), as being of improper dependent form for failing to further limit the subject matter of a previous claim. Applicant is required to cancel the claim(s), or amend the claim(s) to place the claim(s) in proper dependent form, or rewrite the claim(s) in independent form.

Claims 17-19 are directed to methods for preparing the preservative of claim 1. However, claims 17-19 do not recite a step wherein the carbonate source, ingredient (f), is added.

Claims 1-16 and 20-24 are allowed. Applicant is advised to amend the claims as noted in lines 2-6, above.

EP 636461 is particularly noted to show the state of the art.
